RE: NEWS UPDATES and an invitation to our "26th Annual Asphalt Maintenance Conference"

We are happy to announce that our **26th Annual Asphalt Maintenance Conference** will take place on March 23, 2010 (Snow Date: March 25, 2010) here in Scranton, PA where all the major roads meet. We are just one hour away from New York and New Jersey.

The emphasis of the program this year is to provide assistance to the pavement maintenance contractor from either a basic knowledge to advanced procedures in seal coating, crack repair and line striping. Ample time will be set aside to allow the individual contractor to ask questions of interest to his particular needs. Discussion sessions will be scheduled to cover all the equipment on display, products available and the procedures used in the application of the various products. This will include mixtures and the rate of application. An outdoor demonstration will take place after lunch if weather permits.

All equipment will be on display at special SHOW DISCOUNTS for those attending. The show includes NEALCO™ equipment, hot crack repair melters, power blowers, routers, also including pavement tools. All attending will receive our new 2010 CONTRACTORS DISCOUNT CATALOG. This will be an exciting day of food and fun, and a chance to win prizes throughout the day.

Be sure to mail your reservation today! Our training program is second to none in the Northeast. We are looking forward to meeting with you and your guests!

NOTE: Catalog items are shipped on a prompt daily schedule to anywhere in the USA!

REGISTRATION FORM
